Liter per can	8
Material can	PET
Closure	Child Resistant
Type Pallet	CP2 (80x120)
Liter/Pallet	768
Cans/pack	2
Cans/pallet (# cans/layer); # layers	96 (24 cans/layer; 4 layers)
Packs/pallet	48
Weight/can	6.6 kg
Weight/pack	13.2 kg
Weight/pallet	655 kg
Dimensions can (in cm)	WxDXH 19.6x19.6x33.1
Dimensions pack 2x8 (in cm)	WxDXH 39.2x19.6x33.1
Dimensions pallet (in cm)	WxDXH 120x80x130
Pallets/truck	32
Cans /truck	3,072
Liter & kg/truck	24,576 L = 20,960 kg

QLIMA EXTRA PREMIUM QUALITY FUELS

The certainty of Qlima Premium Quality Fuels

Qlima is the European market leader for heater fuels. After more than 30 years of innovation, today Qlima produces only premium quality fuels. Our secret lies in the combination of our unique in-house 'one stop from ship to shop' production concept and our highly qualified dedicated people, who are willing to realise breakthroughs. The quality of our fuel is continuously monitored by independent external laboratories. These organizations belong to the best in the market for independent inspections, testing and verifications. The end result is the most clean, pure and powerful fuel with the best performances available in the market.

In its product and packaging development, Qlima constantly respects the environment. A good example is the introduction of the PET eco can – a Qlima innovation that ensures fuel cans are now 100% recyclable. All in all Qlima is able to guarantee the highest quality, efficiency and comfort, thus providing you with an ultimate heating experience.

The certainty of Qlima Premium Quality Fuels; highest quality, highest efficiency, highest comfort.

Qlima advises consumers to use Qlima Premium Quality Fuels in combination with a Qlima heater that has a laser burner system, in order to achieve the ultimate heating experience.

Qlima Performance Meter

By using Qlima Premium Quality Fuels, Qlima guarantees customers the highest quality, the highest efficiency and the highest comfort. All Qlima Premium Quality Fuels have an outstanding performance. The difference between the various Qlima fuels is very small, the difference with other brands is relatively high. In order to explain the difference between the fuels in not a too technical way, we have developed the Qlima Performance Meter. For each type of fuel four aspects are measured, the outcomes are simply displayed in a bar graph.

Qlima Extra

Premium Quality Fuel for a great heating experience. Guarantees the highest efficiency and a long heater lifetime. Quality: reliable and clean fuel inspected and tested by independent organisation, flash point > 65°C · Odourless: in combination with Qlima heater a great performance · Comfort: great heating experience, guarantees a long service life for the heater and its parts · Usage: to be used in all living spaces · Packing: disposable recyclable PET eco can, child resistance closure · Storage: cool and dark outside living room.

Qlima Savings Program

By using Qlima Premium Quality Fuels, Qlima guarantees customers the highest quality, the highest efficiency and the highest comfort in order to deliver that superior heating experience. One of the results of producing continuously Premium Quality Fuels is a large group of brand loyal customers. In order to reward customers for their loyalty, Qlima created a special savings program. By collecting Qlima Points customers can save for example for extra warranty on Qlima heaters, convenient accessoires, reductions on fuel prices or heaters. Conditions and offers may vary between countries. Visit your local Qlima website for the current savings program.
