

Product data sheet

Product category	Dehumidifiers cold room
Brand	Qlima
Model	DD 208
Colour	White
EAN code	8713508776088

Technical specifications

Dehumidifying capacity ¹	l/24 h	8
Power consumption ¹	W	650
Power supply	V/Hz/Ph	220 - 240~ / 50/60 / 1
Current	A	2,9
Airflow	m ³ /h	120
For rooms up to ²	m ³	50 - 75
Capacity water tank	l	2
Operating range ²	°C	1 ~ 35
Included filters	type	PET
Sound pressure level	dB	34 - 50
Fan speeds	positions	3
Control		electronic
Auto restart		Yes
Dimensions (w x d x h)	mm	351 x 180 x 500
Net. weight	kg	6,5
Compressor type	type	rotary
Protection class		IPX0
Guarantee	years	2

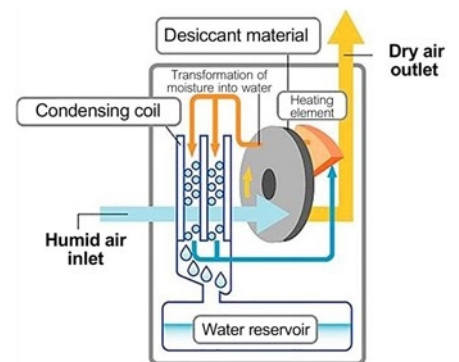

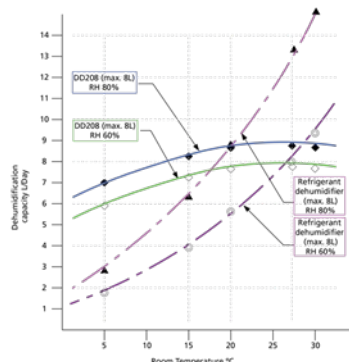

¹ Moisture removal at 20°C. 80% RH
² For indication only.

Package content

Dehumidifier, Drainage tube, User manual

Accessories (not included)

Description	EAN code

Negative ION
generation

Permanent water drain
function

Timer function

Removable water
reservoir

Perfect performance in
cold rooms

Features

Excellent performance with low temperature ambient air, combined with a wide operating range:

The DD 208 has an operating range of 1 to 35 ° C. Thanks to the desiccant power of its technology, the dehumidifier displays above-average performance with ambient air at low temperature (see graphic). Because a heater is included, even more moisture is extracted from the air.

Ionizer function: Thanks to an integrated ionizer, this device emits negative ions in order to restore the ionic balance of the air to more comfort. Indeed, the ionic imbalance can cause headaches, dizziness and stress.

Very stylish exclusive Qlima Design: This dehumidifier is part of an exclusive range of Qlima design dehumidifiers. The glossy white colour together with the colourful blue indication ring presents this model as a revelation in high end aesthetics on household dehumidifiers.

Large size, removable water tank: For ease of use for the end-user this dehumidifier has a extremely large capacity of watertank. With this giant size of water tank the frequency of having to empty the tank is significantly reduced.

Convenience easy to move: The unit is equipped with top handle at the top back of the unit. For even more ease of use this dehumidifier is equipped with castors (wheels).

Possibility for permanent water drainage: By fitting a flexible water drainage tube (not included into package) a continuous water discharge can be realised. If done correctly it will prevent the need for emptying the water container.

Automatic switch off: When the water container is full, a LED light will light up. The dehumidifier will automatically switch off.

24 hour timer: The unit is equipped with a timer function which can switch off the unit after 1-24 hours.

Swing function air outlet : The air outlet is positioned on the upper part which is equipped with a movable flap (up / down). In this way, the air spreads evenly and is particularly useful for drying laundry. The function 'Swing' can also be deactivated.

Full colour box: The unit is delivered completely with auxiliary parts in a full coloured box showing applications and operation information in several languages.
